Shiny Hunting Tools

Shiny Pokémon!

Shiny Pokémon are *extremely rare* variants of Pokémon that have a different color scheme from their normal appearances. First introduced in Pokémon Gold and Silver, Shiny Pokémon have become a favorite challenge for trainers looking to find these rare variations. While they are no stronger than their regular counterparts, their rarity makes encountering one an exciting achievement for any Pokémon fan.

Catch More Shinies!

Shiny Hunting Tools is your one-stop destination for everything you need to make your hunts easier. Explore the many Shiny hunting methods found throughout the Pokémon games, record your progress with our Shiny Hunt Counter, and keep track of your collection with our Shiny Dex Tracker.

No matter what you're hunting or which game you're playing, we've got the tools to help you stay organized and keep track of your journey. Happy hunting, and may your next encounter sparkle!
